

### **Lower Primary**

When presenting to younger children (8 and below) a great idea is to use a book to introduce your role. Some suggested titles are below and schools will almost certainly have the below books if you ask for them ahead of your visit or will be able to suggest titles if required. A suggested session would consist of reading the book to the children before talking about your role and answering questions. Depending on the age of the children you could then ask them to draw or make an aspect of your role or, for older children, do one of the activities from the primary or all ages sections.

Suggested book titles:

- Lighthouse keepers lunch
- Earth's Incredible Oceans
- The Storm Whale
- Big City Port
- Float
- How Ships Work
- The boy who sailed the world
- An Engineer Like Me
