
Future of the work in the Maritime sector

*- Education and trainings of
Maritime Professionals*

Branko Berlan, ITF Accredited Representative to the IMO
5th MASRWG Conference: *MASS Regulation – The Tide has Turned*
16 January 2020

Gaps

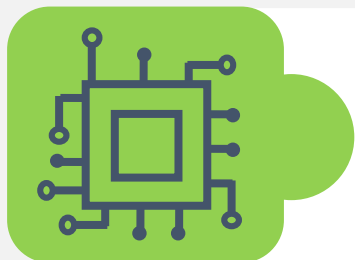

Human element and
Education & Trainings

Human element and
Advanced technology

Considerations

**Regulations &
Policies**

**Technological
developments**

**Societal
Impacts**

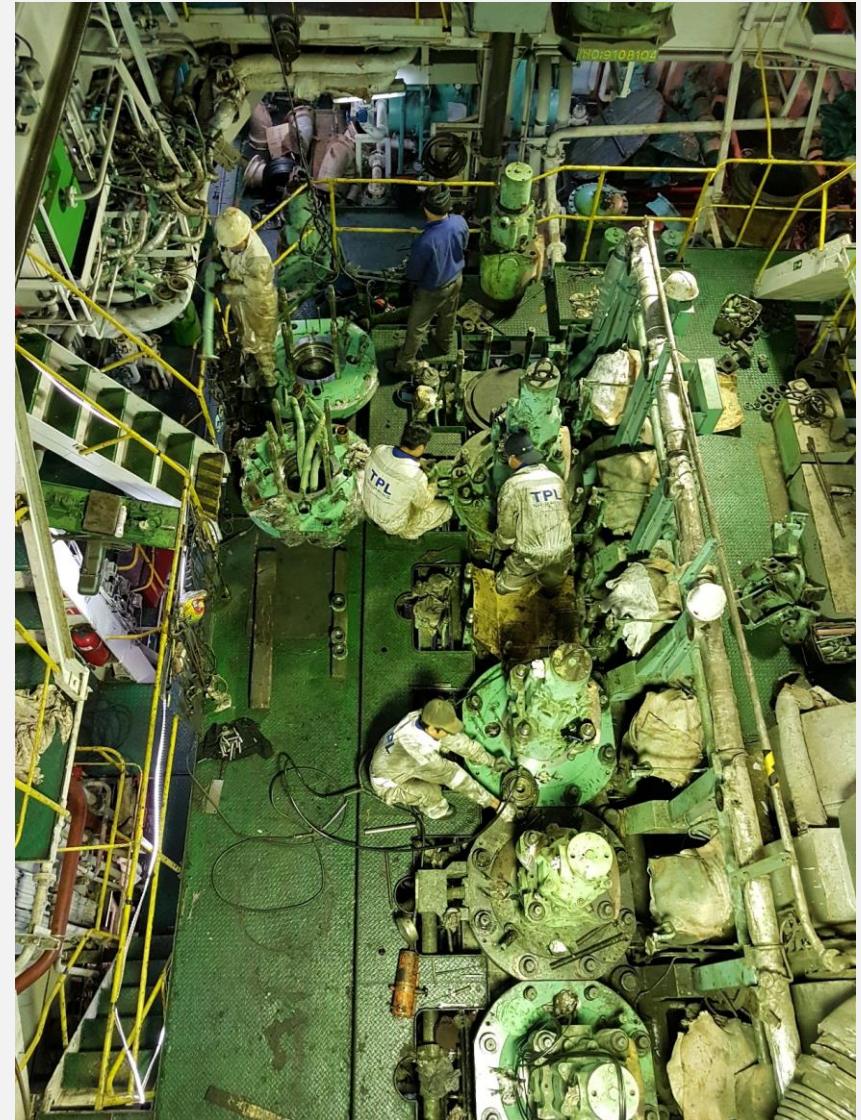

Key points

- Human centred design
- Sustainability

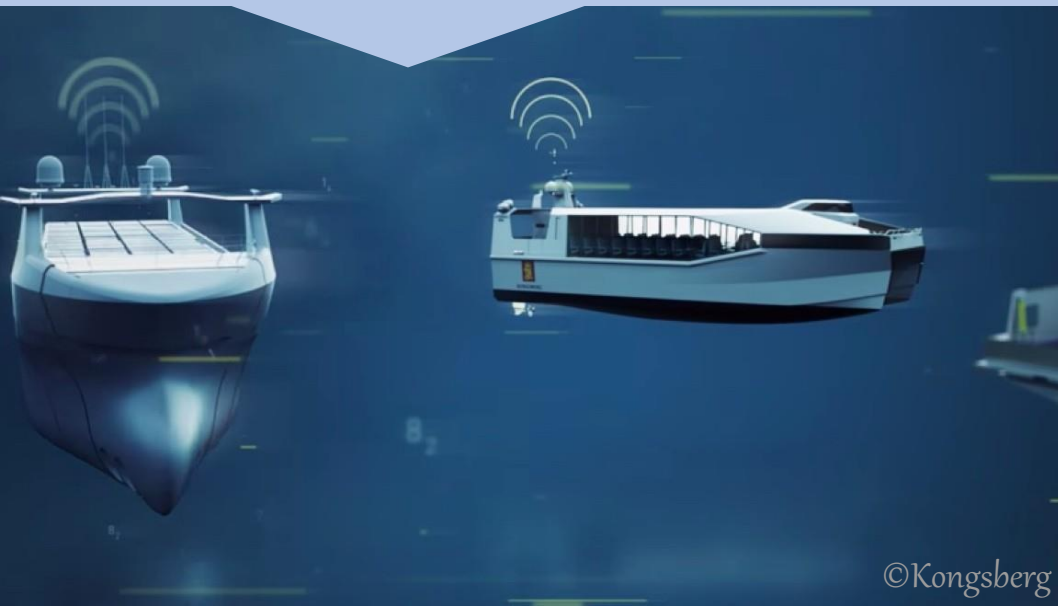

The future MET is to upskill current generation and produce new generation of maritime professionals.

The reality is not only about selling technology.

Thank you
